

ROCKAWAY VENTURES

Brain MCP

RV

Connect Claude Code or Codex to the read-only Ventures brain so the team can ask general questions in chat.

MCP-ONLY PACKAGE. NO BUNDLED WORKFLOW. NO BRAIN WRITE ACCESS.

What This Is

- A read-only MCP connection to the Rockaway Ventures brain.
- It lets Claude Code or Codex search and read brain context during chat.
- It is for general questions about what is in the brain.

What This Is Not

- Not a bundled workflow.
- Not an app-specific automation.
- Not a way to edit the brain.

Install

Open Terminal and paste this one command. Setup will ask for your bearer token, hidden while you type.

```
bash -c "$(curl -fsSL https://raw.githubusercontent.com/zabrodsk/rockaway-ventures-brain-mcp/main/bootstrap.sh)"
```

1 What Gets Connected

MCP ENDPOINT

```
MCP name: rockaway-ventures
MCP URL:  http://100.102.180.108:8789/rockaway-ventures/mcp
Access:   read-only
```

You need private-network access to reach this address and a bearer token from the Rockaway brain admin.

2 How To Ask Questions

After setup, restart Claude Code or Codex if it was already open. Then ask normal questions.

EXAMPLES

```
Use the Rockaway Ventures brain to summarize what we know about Acme.  
Search the Ventures brain for recent notes about this founder.  
What open threads do we have around this deal?  
Which pages mention this person?
```

3 Troubleshooting

Cannot connect

Make sure your machine is on the private network where **100.102.180.108** is reachable.

Unauthorized

Ask for a fresh Ventures bearer token and rerun the setup command.

Rockaway Ventures Brain MCP. Read-only retrieval for Claude Code and Codex.
